from the lower animals." Bishop Favors Dancing.

Bishop Hughes was a foremost advocate of removing the provisions of the church discipline which provided for expulsion from the church in case of those who danced, played games of chance, went to the theater and circus. He wrote an article for the Methodist Review, the standard monthly of the denomination, which was distributed in pamphlet form to every delegate to the last general con-ference. He said in the article the rule never had been and never could be en-forced. He therefore advocated a reforced. He therefore advocated a return to the original rule written by John Wesley, the founder of the Methodist church, which dwelt simply on general principles and forbade "the taking of those amusements which cannot be used in the name of the Lord Jesus." The substitution of the Wesleyan rule for the church penal code was carried in the conference by five to one vote.

In the sens as Americans think of assimilability, it is con te absorption into the stock without greatly anging it. It is not the assimilability which ald be permitted by emotions, sanctioned by eral consent, and produce a mixed breed. Dese against that is one of the purposes of re tion and exclusion. The Japanese evidently do see that when we say we cannot safely change groups which cannot melt together, we do not ply inferiority. We say there are differences in e which should continue to exist for the greater od of each nation. When both people recognize realistic limitations in their intercourse they ll be on safe and it ought to be friendly ground.

There will be no end to Mexico's troubles until Mexican politicians of all varieties learn the A. B. C's of international responsibility, and so long as we say "keep away," to governments able and willing to impose respect for international rights, our duty to do as well is plain. We hope our tate department will leave no excuse for doubt as to our readiness to act with vigor if compelled to fulfill that duty. Certainty on that subject will make for peace and good relations. The pitiful vacillation of the Bryan régime was injurious to both Americans and Mexicans.

GETTING SET TO GO.

We gather from remarks attributed to Mr. George Brennan of Illinois now in New York that he has some bananas and that he knows just where he will drop the skins. Mr. McAdoo made an entrance which was described as triumphal. He was met by the populace. For some days the walking care have brought and are bringing this care have brought and are bringing this care have brought and are still in may be safe for him, but his friends should see that his parades are preceded by street sweepers. 1.050,000 Paid in Full. A good deal of clerical work will be required in making the March 15 refund. The treasury has figured out that 1,050,000 persons paid their income taxes in full on March 15. Insamuch as the total tax refund is \$16,140,000 it is indicated that most of the checks for refunds will be made out for comparatively small amounts.

The treasury is still uncertain as to just what the surplus will be for the fiscal year 1925, which comes to an end on June 30. The payment by Great Britain of approximately \$50,000,000 in cash as part of its debt payment, increases the surplus for the year by that amount.

### Only 88 Votes Separate

Candidates for Governor St. Paul, Minn., June 19.—In one of sest contests in the state's history, only eighty-eight votes tonight separated Tom Davis of Minneapolis and Floyd B. Olson, also of Minneapolis, in the Farmer-Labor gubernato rial contest in Monday's primary. Re-turns from 3,514 precincts out of 3,530 gave Davis 55,585; Olson, 55,497.

Ocean Ships in Collision

Limp Into Newfoundland St. Johns, N. F., June 19.-Two battered vessels, the Italian steamer Clara Camus and the Canadian Pacific liner Metagama, crept into St. Johns to-night, leaking badly as the result of a collision in a heavy fog seven miles off Cape Race this morning. There was no loss of life.

# and I hope ... she'll be a fool-

3

THE NURSE was bending over the bed of a young mother whose first child had just been born.

"You have a beautiful little girl," she whispered.

"A girl?" The young mother's eyes opened. Suddenly she began to cry.

"All right," she said brokenly, "I'm glad it's a girl. And I hope she'll be a fool—that's the best thing a girl can be in this world, a beautiful little fool."

F. Scorr Firzgerald relates this true incident on page 13 of Woman's Home Companion for July—the Scott Fitzgerald of that "younger generation" which got itself so thoroughly talked over in the months immediately following the war.

"Wait till you have children of your own," older folks said to them. Well, the period of waiting is over. They have children; they are parents. What sort of parents? What kind of ideals will the children of this new, free generation have?

Nor the ideals of the young mother whose pessimistic outburst is quoted above. Mr. Fitzgerald dismisses her with a sentence. But neither will they be the ideals that ruled the world twenty, or fifteen, or even ten years ago. You will disagree with part of Mr. Fitzgerald's article. You may be angry at part of it; but in it and through it you will have another indication of the reason why the Woman's Home Companion has such a remarkable hold on its 2,000,000 readers

By some instinct which is surer than logic, the woman who edits the Companion keeps it just a trifle ahead. While the world is still talking of the "younger generation" as irresponsible boys and girls, she presents them as parents. The development of tomorrow is her interest—in clothes, in food, in home-making, and in thought.

And women respond to her instinct. Not all of them—not the isolated woman who cries, "Let my daughter be a fool," and not the woman who carries conservatism to excess. But the great middle majority. They write to this woman editor; they read her replies; they guide her in her thinking, and she guides them.

# Survivorship Savings Accounts not fully appreciated by many people

A SURVIVORSHIP SAVINGS ACCOUNT with the Illinois Merchants Trust Company is an ideal arrangement for husband and wife, or for any two people whose interests are mutually dependent, because it permits either one to make withdrawals from the account at any time.

In case of the absence of either person, or in the event of accident or other emergency, the other still has free access to the account.

Likewise, upon the death of either person, the fund may be withdrawn by the survivor without probate proceedings.

The possession of ready cash, so important at such times, can be assured in no better way than through a Survivorship Savings Account.

Such an arrangement gives not only a sense of personal security but also the satisfaction of knowing you have provided an additional measure of protection for your dependents.

Our officers will be glad to explain to you in detail exactly how you would benefit from a Survivorship Savings Account in the llinois Merchants Trust Company.

# New Victor Records by McCormack and Paderewski

As examples of perfect tone production the voice of McCormack and the playing of Paderewski are really marvelous. As examples of what the Victor alone can offer, they are typical.

In making Victor Records Paderewski uses his own piano, knowing that the Victrola and Victor Records reproduce minutely tone, technique and individual artistry.

The amazing accuracy of reproduction in the records of these two great artists extends to all Victor Records when played upon the Victrola.

There is but one Victrola and that is made by the Victor Company —look for these Victor trade marks.

Don't Have Gray Hair

For a long time amazing reports have been coming about the results obtained by gray haired people who have used the clean, colorless liquid known as Kolor-Bak.

Kolor-Bak applied to any gray hair quickly brings back the original color, giving the hair its natural appearance, not a dyed look. It is a proved substitute for the natural pigmentation. Results often appear in a week. It is not necessary to furnish samples of the hair, as the one clean, colorless liquid is for all colors.

# New Girdle Reduces Waist and Hips

Your Mirror

HOW much thinner would you like to be? Wouldn't you like to slenderize your waist and hips, take off three to six inches?

Wouldn't you like to make your whole figure more graceful, buoyant, attractive-at once?

Tells the Story No need nowfor starvation diets, for tiring exercises, for drugs, for self-denials! Here's a magic girdle that quickly, gently massages away the fat you do not want. Your friends will be amazed when they see the instant transformation in your appearance. You actually look thin while getting thin!

Worn Instead of Stiff Corset

The Madame X Reducing Girdle is quite unlike anything you have ever known. It is based upon a new principle of "unconscious" or self-massage which is so effective that you begin to reduce from the very first minute.

The Madame X Reducing Girdle is worn over an undergarment. It takes the place of stiff, boned corsets, and is so comfortable that the moment you put it on you feel a new sense of slenderness and ease.

Built on special self-massaging principles,

the Madame X Reducing Oirdle fits the figure snugly, without binding or constricting it in any way. It is made of soft, live, supple rubber

specially prepared for reducing purposes-a rubberso fine and thin that it has no bulk, yet with amazing strength and with the magic power to support the whole figure, to buoy upthe muscles of the back and sides. The girdle holds in the figure admirably, yet does not bind it or compress it. Why, you scarcely know you have it on!

Look Thin-Get Thin!

Almost instantly the Madame X Reducing Girdle makes you look and feel years younger. Here at last is a scientifically perfected method of corseting that makes you look thinner at once, and that actually reduces the fat from the waist, the hips, the abdomen!

Once you have worn the Madame X Reducing Girdle you will not want to be without it. It is wonderfully comfortable and durable. You will find yourself using it as you never

could a corset for walking, riding, golfing.
You must see this remarkable—and entirely new-girdle to appreciate it. You won't want to take it off! Its low price is a surprise, tool

SYNOPSIS.

In a customs sharty on the Mex. Ariz. border Theodore Talcott is preparing his resigned from government service when Ruth Burton, known to him as "Fiame" Burton an they attended the University of Arizona together, rides up to inquire about passers. She tells Talcott she is the owner of Broken Arrow ranch and because of the contract of th

The aunt's face, capable only of the simpler emotions, registered dismay.

"Am I doomed to wither here and blow away like tumble weed?" she groaned. Hales looked really tragic—suffering. "If the confounded Cacti was only my own you could have all the grass and water it supports. But I'm only a prospective heir. I got down on my knees to the old man to get you a renting proposition. This buy-out offer was the best he'd do., Think it over for a week, Flame, and I'll ride back for your final answer."

"Don't bother," she said, and arose with an air of dismissal. "In a week I'll be on my way to—to green pastures."

"If you don't forget-what, professor?" she lent aid.

"I declare, Miss Ruth, I have forgotten what I feared I might forget," admitted, crestfallen. "But I'll endeavor to remember and tell you anon." She watched him amble across the yard and head for the branding corral huge umbrella bobbing over his head like the roof of a morque. Queer cuss, she thought. No wonder about his sobriquet-he was so absent minded that he had been known to forget his own name. Flame was glad, though, that she had been able to aid him in his experiment. Whether anything came of the nose tabulations or not, he was deeply grateful for the

She was wondering what her red steers thought of having their moist noses inked and pressed on paper, when a shrill scream from the direction of the corrals startled her. Rushing off the porch, she saw the professor in the grasp of "Hank" Owens, her range boss, a surly, silent product of the border, whom she kept in her employ, despite a personal dislike, because he se thoroughly knew his trade.

he so thoroughly knew his trade. Owens had resented Absent's coming to the ranch, considered nose printing the height of foolishness, and grumbled at the extra work involved in putting the cattle through the branding chutes for the experiment. A powerful man physically, of giant stature and somewhat brutish instinct, the range boss now held the faculty midget clear of the ground and was shaking him as a terrier might shake a rat. Surmising some fresh clash over the noseprinting, Flame rushed to the rescue, her speed increased by the victim's /continuing shrieks.

Drop him this instant, Hank!" she shouted command as she neare the scene of oppression.

Still holding the professor aloft with a collar clutch, Owens looked up to see her bearing down upon him. With a final teeth chattering shake he banged his victim to the ground, then waited for the dressing-down that

"Well, yesterday he called me 'Miss Emma,'" Owens continued his defense. "And the day before that I was 'Poinsettia."

Flame began to understand, for "Poinsettia" was the name of their cook and "Miss Emma" was the address Herrington gave to her aunt.

"He's trying to make me out a sissy," the range boss went on. "I'm a heman with hair on my chest, and I won't stand for it. If the little galoot

"You're a brave article, you are!" Flame's scorn was scorching. "One of nature's noblemen! A strong male of the great open spaces!"

But the professor had returned from retrieving the vagrant shadestick and was ready with conciliation. "It's just my absent mind," he explained. The management continues to bill the new play for Sunday night, although there is a likelihood of jost ponement because of the delay in filling the cast.

The sun's scorching rays sent terror and suffering into the minds and bodies of the poor mothers and children of the tenements. The call was for ice, ice—more ice.

It was the first blistering day of the summer. Long before noon the county agent, the charities, the alms giving stations, and other helping institutions were besieged by the poor. Nurses, settlement workers, even school teachers, reported to their headquarters that ice was needed here, there, and everywhere.

# EMBARRASSING MOMENTS

My most embarrassing moment came during a swimming party on which I had gone with several other girls. As there was no place to dress, we had worn our bathing suits un-der our street clothing and, when we reached the water, hung our outer garments on a fence. That was disastrous, for we had been in the water but a short file before some mischlevous boys ran off with all the clothing but belts and shoes. It grew late. At last we had to start for home and set off down the road in bathing suits. Whenever a car passed we all tried to hide behind the same tree. Once we were too late; but joy! There were friends in the car, and they saw us safely home.

JUNE BRIDE Matrimonial Bureau Proves Women Seize Leap Year Rights BY DORIS BLAKE.

Leap year is no joke for the man ho lacks the heart to refuse a lady anything she asks for. It is no joke at all, but an absolute fact, that women take advantage of their recogized prerogative. This on the author ity of a man who runs a matrimonial areau with 37,500 men and women on his list of "Want to Marry." The University of California, seeking

# Never another moth-hole!

Prevent moth damage by treating the cloth-use LARVEX

OVER 300 of the leading clothing manufacturers throughout the country have used Larvex successfully. Not one moth-hole in hundreds of thousands of Larvexed garments!

Now you too can give this positive mothproofing to all your woolens, and end moth damage forever. Larvex is easy to apply, and a little covers much. Woolens treated with Larvex need no other protection against moths.

No odor! No stains! Odorless! Larvex leaves no trace on your woolens. It has no odor; it will not

Easy to apply—packing away is un-necessary. Larvex has no effect on the fabric sprayed except to render it entirely

You can get Larvex at drug, department and Pint bottle with atomizer

# Is All Converted Into Power; Gives More Miles

RED Crown is economical in all ways. But extra mileage is its economy point most prominent in the minds of its users.

A number of garages and service stations have recently written to us thus:

> "My customers find that Red Crown gives more power and mileage than any other gasoline."

> "My customers state that Red Crown gives them the most mileage."

> "My boarders have found that Red Crown gives more mileage than other gasoline."

Motorists compare motor fuels. They seek the most for their money. Mileage is the major issue in their minds. And Red Crown delivers the extra mileage—every time.

Red Crown gives more miles for a very simple chemical reason. It has an unbroken chain of boiling point fractions.

Because of these boiling point fractions up to about 427 degrees Fahrenheit, Red Crown gives power to the very end of the piston stroke. The higher fractions are the greater power producing fractions. They spell the superiority of Red Crown. Red Crown is rich in high power fractions. Hence maximum mileage. Prove this now.

Buy Red Crown at any Standard Oil Service Station and at most Garages

Investigate Our Coupon Book System—it's a Great Convenience. Sold in \$10 and \$25 denominations.

was laughing until the umpire called him out. He left the field crying, crying out loud and everybody is, the stand was laughing.

It was the sixth inning before the Cubs had an inning with no close decisions, so they got a run. O'Farrell walked and Jacobs bunted. Jigger Statt then crashed a two-bager due to the first them crashed as two-bager due to the first them crashed as two-bager due to the first frame. Archivor inside of first base, so far inside that not even a blind man could have called it foul. O'Farrell romped home.

In the seventh the Phils got their first hit and a run. Harper opened with a hit and old Cy Williams followed with a crashing blow to right, sending Harper to third. With the infielders playing in, Mokan shapped to Hollocher, who made sure Harper wasn't going home, then shot to Cotrar frame, when the shot to Grantham, who in turn shot to Cotter for a double play. Harper got all fussed and almost was picked off third for a triple play. He got back, and then Wrightstone produced a scratchy single past third base, letting Harper in Herr's Winning Rally.

The fight was terrific till the tenth, when Ford fumbled Grigsby's coller.

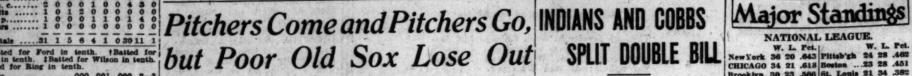

The fight was terrific till the tenth, when Ford fumbled Grigsby's roller, electing Deaver reach first. Heathcote sacrificed and O'Farrell poled to right, scoring Grigsby. Bob took second on the peg to the plate, from where he salloped home on Statz's two base drive after Jacobs had popped out. That put the game on ice.

The Cubs departed tonight for home, where they play the Cardinals in a double-header Saturday. Since leaving home they have won nine and lost three games. Pretty fair for kids.

A TOUGH FINISH

BY IRVING VAUGHAN. St. Louis, Mo., June 19.-[Special.]-After having the game in their hands for seven innings, John Evers' White Sox unraveled at the finish today and

required ten innings on this occasion to make the Phils fall. The score was 3 to 1, and the combat was one of those old fashioned pitching duels between Elmer Jacobs and Jimmy Ring. Jacobs had the better of the battle, allowing only five hits while the Cubs poled seven off Ring.

Swanky gabardines for hot weather

We would hardly venture to offer the men whe come here the usual sketchy article called a hot weather suit. Still there are gabardines—and weather suit. Still there are gabardines—and gabardines; these are the latter, many of them imported, all beautifully tailored, cut in the correct English manner. Loose, easy, cool, comfortable and good looking. Grays and tans for the most part, with faint stripes. Very good with white flannels. Made up in two and three piece suits.

Hot weather over the west led to some selling of the latter delivery, which represents the new crop. Eastern demand for cash corn is improving and sales were in excess of the 70,000 bu reported. September and December soid at a new high on the crop early.

General comment on the new crop was more optimistic, although it has made a late start and needs cultivation in many sections. In Illinois the crop is generally two weeks late.

First Mortgage and Refunding (Now First) Six Per Cent Gold Bonds SERIES "B"

Dated July 1, 1917

Due July 1, 1942

Interest payable January 1 and July 1 at office or agency of the Company in New York. Coupon bonds in denominations of \$1,000, \$500 and \$100, registerable as to principal, Interest payable so far as may be lawful without deduction of Federal Income Tax not in excess of two per cent. Reimbursement of Pennsylvania and Connecticut four mills tax, Maryland four and one-half mills tax, and the Massachusetts income tax not to exceed six per cent to holders upon proper application. This issuance of bonds has been approved by the Illinois Commerce Commission. Redeemable as a whole or in part at 105 and interest, on July 1, 1937, or any interest date prior thereto and at par and interest on any interest date thereafter.

THE FARMERS LOAN AND TRUST COMPANY, NEW YORK, Trustee

BUSINESS: The East St. Louis and Interurban Water Company was incorporated in 1916 as a consolidation of two successful companies which had, for a long period of years, been part of a group of water works properties now controlled by the American Water Works and Electric Company, Inc.

The East St. Louis and Interurban Water Company supplies water without competition for domestic and industrial purposes to the City of East St. Louis and the adjoining communities of Granite City, Madison, Venice, Belleville, Brooklyn, National City, Fairmont City and Swansea, Illinois.

The district served by the Company is in close proximity to the second largest coal field in the United States and is one of the most important industrial centers of the Middle West. East St. Louis is second only to Chicago as a railway center. being served by thirty-six railroads and four belt lines. It is also favorably located with respect to water transportation, being situated on the Mississippi River opposite the City of St. Louis, with which it is connected by four traffic bridges. The total population served is estimated at 150,000.

SECURITY: The East St. Louis and Interurban Water Company First Mortgage and Refunding (Now First) Gold Bonds constitute the only funded debt of the Company and, in the opinion of counsel, upon completion of this financing, will be secured by a first mortgage on the entire physical property of East St. Louis and Interurban Water Company. Such property consists of real estate, water mains, pumping stations and other appurtenant equipment and, based on the average cost prices of the past ten years, the Company's property is valued in excess of \$8,100,000.

EARNINGS: The earnings of East St. Louis and Interurban Water Company for the year ended April 30, 1924, are as follows:

Operating expenses, maintenance and Annual interest on \$5,028,500 First Mortgage and Refunding (Now First) Gold Bonds, including this issue . . 266,990.00

MANAGEMENT: The East St. Louis and Interurban Water Company is controlled through ownership of its entire common stock by American Water Works and Electric Company, Inc., which controls and operates twenty-seven water companies located in thirteen states and also controls several large and prosperous electric light and power companies, including those in the West Penn System and the Potomac Edison Company. The consolidated balance sheet of American Water Works and Electric Company, Inc., as of December 31, 1923, shows gross assets, consolidated with those of its subsidiaries, to be \$251,116,921. The net income of American Water Works and Electric Company, Inc., consolidated with that of its subsidiaries, after all charges, for the twelve months ended March 31, 1924, was \$3,364,959. The American Water Works and Electric Company, Inc., through its various subsidiaries, serves a total population of over 3,250,000.

PURPOSE OF ISSUE: The purpose of this issue is to retire all underlying mortgage bonds and the First Mortgage and Refunding Bonds, Series "C," now outstanding, and also to partially reimburse the Company for expenditures made for additions, improvements, and extensions to its properties.

Legal matters in connection with this issue are subject to the approval of counsel. This offering of bonds is made for delivery when, as, and if issued, and received by us.

HEAT MAKES BEACHES POPULAR. For the first time this year thousands sought relief from torrid breezes at bathing places from Evanston to Calumet park. While the mercury climbed above the 90 mark the temperature of the water rose to 66 degrees, by far the most temperate of the season. Children are seen bathing at Oak street beach. (Story on page three.)

STANDARD BEARER. Duncan McDonald is nominated for presidency by "third party."

NEW SOUTHPAW. G. H. Milstead is the latest addition to the Cubs pitching staff.

GASSED. State Senator Arthur A. Sherman, one of Rhode Island's solons affected by gas bomb.

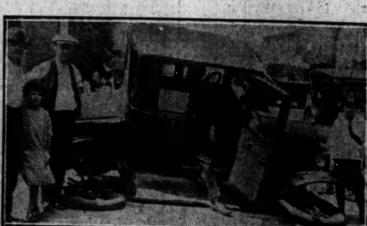

FIND JEWELS. A quarter of million dollars worth of jewels were found in mail bags recovered by the police from robbers of St. Paul and Milwaukee train. Left to right: Sergt. Howard Cleveland, Sergt. Michael Phelan, and Sergt. Nels Larson.
